To: Members of the Working Committee of ISGIDAR.

Subject: MEETING OF WORKING COMMITTEE.

Members of the ISGIDAR Working Committee who are close enough to Chicago to get there on their own funds are urged to attend a one-day work session. This meeting will be held all day, November 16, at Billings Hospital, Chicago, in a room near Dr. C. R. (Bob) Schuster's office. The purpose of the meeting is to review the data assembled from the questionnaires and to decide on the next course(s) of action. Dr. C. E. (Chris) Johanson and Bob Schuster have put in many hours assembling the data provided by other members of the working committee. These data now need to be considered carefully. Decisions need to be made regarding the best way to utilize the information presently in hand. It seems likely that additional experimental work will have to be done and it would be most helpful to have those persons who will be participating be present and to get their views on the best way to proceed.

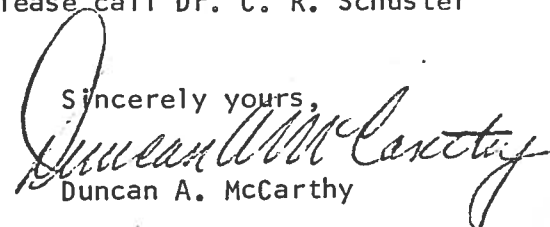

If you are able to attend and participate it would be helpful if you were to bring along any additional data on drug self-administration in monkeys that would extend the information you have already provided to the Committee on the questionnaire.

Bob has made arrangements for hotel accommodations at 50th On The Lake (Motel). They will hold 20 rooms until November 1, but firm reservations must be made by then if one wishes to stay in the vicinity of the meeting place. For your convenience I've prepared the attached form which should be sent to Bob as quickly as possible so he can make the necessary arrangements. There will likely be some sort of no-host get-together on the evening before the meeting, so if you can make it, plan to arrive in Chicago during the P.M. of the 15th.

For those who are not able to attend the meeting, minutes will be taken and circulated with the next issue of the ISGIDAR Newsletter. Additional important material in need of consideration by members of the working committee will be mailed to non-attending committee members as soon as practicable after the meeting.

If you have need for additional information please call Dr. C. R. Schuster at 312-947-6451.

Sincerely yours,

  
Duncan A. McCarthy
