

ISGIDAR - SSPD Program, June 9, 1985, Baltimore, MD.
Hyatt Regency Hotel, Frederick Room

- 8:30 - 9:00 **Registration (Refreshments -- Pastries, Coffee, Tea, Juice)**
- 9:00 - 9:25 **Genetics as a Tool for Determining the Relationship Between Ethanol Preference and Ethanol Self-Administration.** Mary C. Ritz, Frank R. George and Richard A. Meisch, University of Minnesota.
- 9:25 - 9:50 **Oral Ethanol Self-Administration in Mice: Relationship to Ethanol Preference in Inbred Mice.** Gregory I. Elmer, Richard A. Meisch and Frank R. George, University of Minnesota.
- 9:50 - 10:15 **Acute and Chronic Morphine Dependence in the Pigeon: Application of Three-Key Drug Discrimination Procedures.** Charles France, University of Michigan.
- 10:15 - 10:40 **The Discriminative Stimulus Effects of d-Amphetamine in Humans.** Larry D. Chait, E.L. Uhlenhuth, and Chris-Ellyn Johanson, University of Chicago.
- 10:40 - 10:45 **Break**
- 10:45 - 11:10 **Phenylpropanolamine: Behavioral Effects, Neurochemistry and Interaction with d-amphetamine in rats.** Arthur P. Leccesse, Jordan H. Cohen and William H. Lyness, Texas Tech University.
- 11:10 - 11:35 **Instructions Control the Ability of Nicotine to Serve as a Reinforcer.** John R. Hughes, Roy W. Pickens, William Spring and Robert M. Keenan, University of Minnesota.
- 11:35 - 12:00 **A Randomized, Placebo-Controlled Study of the Effects of Dose on Nicotine Gum Self-Administration.** Steven W. Gust and John R. Hughes, University of Minnesota.
- 12:00 - 1:15 **Lunch**
- 1:15 - 1:40 **The Conditioned Place Preference Test as a Means of Investigating Drugs as Reinforcers.** L. D. Reid, C. L. Hubbell and S. A. Czirr, Rensselaer Polytechnic Institute.
- 1:40 - 2:05 **Oral Self-Administration of Diazepam and Triazolam in the Baboon: Dissociation Between Drug Preference and Physiological Dependence.** Nancy A. Ator, Roland R. Griffiths and Bettye L. Campbell, Johns Hopkins University.
- 2:05 - 2:30 **Diazepam Self-Administration in Naive Rhesus Monkeys.** Kathleen A. Grant and Chris-Ellyn Johanson, University of Chicago.
- 2:30 - 2:55 **Abuse Liability and Reinforcing Efficacy of Triazolam in Humans.** John D. Roache and Roland R. Griffiths, Johns Hopkins University.
- 2:55 - 3:00 **Break**
- 3:00 - 3:25 **Self-Administration of Phencyclidine (PCP) and PCP Analogues by the Rat.** N. L. Goodman and J. E. Moreton, University of Maryland.
- 3:25 - 3:50 **The Progressive Ratio Method for Evaluating Strength of Reinforcement of IV Self-Administered Drugs Using Rats.** James R. Weeks and James R. Collins, Weeks Laboratory Specialties and The Upjohn Company.
- 3:50 - 4:15 **Environmental Modification of Tolerance to Morphine's Discriminative Stimulus Properties in Rats.** Christine A. Sannerud and Alice M. Young, Wayne State University.
- 4:15 - 4:40 **Discriminative Stimulus Properties of MK-212: Effects of Serotonin Agonists and Antagonists.** J.P. Appel, K.A. Cunningham and P.M. Callahan, University of South Carolina.
- 4:40 - 5:05 **Antagonism by Indomethacin of Oral Ethanol Self-Administration.** Frank R. George, University of Minnesota.
- 5:05 **ISGIDAR Business Meeting**

Papers Read by Title only:

Brain Sites Involved in the Mediation of the Behavioral Effects of Intraventricularly Administered (-)-Nicotine. Victor J. DeNoble, Yvonne P. Dragan and Paul C. Mele, Phillip Morris Co.

Patterns of Ethanol Consumption as a Function of Ethanol Access Schedule and Level of Food Deprivation. Henry Marcucella, Boston University.
