

2011 ISGIDAR Meeting Program
8:30 a.m. - 5:00 p.m. Saturday, June 18th, 2011
Westin Diplomat, Atlantic 3, Hollywood, FL

8:30 a.m. Registration (\$80) and Continental Breakfast

8:59 Opening Remarks – S. Barak Caine, President, McLean Hospital

9:00 Mike Nader, Wake Forest, *Effects of chronic methylphenidate treatment on cocaine self-administration in adolescent male rhesus monkeys*

9:20 Jim Woods, Chris Podlesnik, Corina Jimenez-Gomez, University of Michigan, *Aversive control by drugs*

9:40 Elise Weerts, Johns Hopkins, *Alcohol under a chained schedule of reinforcement*

Student Paper Award Winner

10:00 Nathan Holtz, University of Minnesota, *The effects of baclofen on the escalation of i.v. cocaine self-administration and reinstatement of cocaine-seeking behavior in rats selectively bred for high (HiS) and low (LoS) saccharin intake*

10:20 – 10:40 COFFEE BREAK

10:40 Francisco Leri, University of Guelph, *Animal models of relapse: from reacquisition to reinstatement, and back*

11:00 Claudio Zanettini, NIDA, *Endocannabinoid involvement in nicotine reward*

Student Paper Award Winner

11:20 Nina Shinday, New England Regional Primate Center, *Self-administration of compounds with functional selectivity at gamma-aminobutyric acid type A receptor subtypes in midazolam- but not cocaine-experienced monkeys*

11:40 Jack Henningfield, Pinney Associates, *Reinforcing effects of tobacco and other complex drug products: regulatory challenge to science*

12:00 – 1:00 LUNCH BREAK (Registration required for Luncheon)

1:00 Chris-Ellyn Johanson, Wayne State University, *Recollections on the history of ISGIDAR*

1:20 Bob Balster, Virginia Commonwealth University, *The 1970s ISGIDAR validation study*

1:40 Colin Haile, Baylor College of Medicine, *The effects of self-administered smoked methamphetamine in methamphetamine-dependent volunteers is altered by N-acetyl-cysteine*

2:00 Tom Newton, Baylor College of Medicine, *Dose-dependent effects of disulfiram on choices for cocaine over a monetary alternative in cocaine-dependent volunteers*

2:20 Rich De La Garza, Baylor College of Medicine, *Modafinil attenuates IV cocaine self-administration in cocaine-dependent volunteers, though escitalopram reverses this effect*

2:40 – 2:55 AFTERNOON SNACK BREAK

2:55 Barak Caine, McLean Hospital, *Acknowledgements for Guest Speaker*

3:00 Paul Kenny, Scripps Florida, *The orexin system: potential roles in nicotine self-administration*

3:30 Mark Smith, Davidson College, *Peer influences on drug self-administration: social facilitation and social inhibition of cocaine intake*

- 3:50 Daniela Rüedi-Bettschen**, University of Arkansas for Medical Sciences, *The effects of monoclonal antibody treatment on methamphetamine self-administration and reinstatement*
- 4:10 Katie Saulsgiver**, University of Vermont, *Baseline delay discounting predicts response to a behavioral smoking intervention among opiate maintained patients*
- 4:30 Ziva Cooper**, Columbia University, *A controlled human laboratory study investigating the effects of quetiapine on marijuana withdrawal and self-administration*
- 4:50 ISGIDAR BUSINESS MEETING & SOCIAL (OPEN TO ALL ATTENDEES)**
Voting in New Members
Election of New ISGIDAR Secretary

The 2011 ISGIDAR Meeting was supported in part by the generous contributions of:

Grünenthal USA, Inc.

(with special thanks to Dr. Marta Sokolowska, Ph.D., Director, Center for Abuse Liability)

Pfizer Worldwide R&D

(with special thanks to Dr. Paul Butler, Ph.D.)

This year's travel awards were made possible by a charitable contribution from Dr. Richard Foltin and Dr. Suzette Evans
