

**ISGIDAR SCIENTIFIC MEETING
SATURDAY, JUNE 13**

7:15 - 7:55 **Breakfast and registration**

7:55 - 8:00 **Introductory remarks**

Nicotine self-administration mini-symposium

8:00 - 8:20 Rick Bevins

Nicotine self-administration in rats - trials published and unpublished

8:25 - 8:45 Rajeev I. Desai, Katherine A. Sullivan, and Jack Bergman

Nicotine self-administration behavior under second order schedules in nonhuman primates

8:50 - 9:10 Stephen J. Kohut and Jack Bergman

A parametric evaluation of nicotine's reinforcing effects

9:15 - 9:35 Rich De La Garza and D.G.Y. Thompson-Lake

Human nicotine self-administration via electronic cigarettes and cue reactivity to smoking images using virtual reality

9:40 - 10:00 Jack E. Henningfield, Edward J. Cone, August R. Buchhalter, Reginald V. Fant

*Abuse liability assessment of electronic nicotine delivery systems: Regulatory precedents from the FDA 2015
Guidance for Abuse-Deterrent Opioids: It's all about response cost*

10:05 - 10:20 Bob Balster

Discussant

10:25 - 10:45 **Coffee break**

10:45 - 11:05 **Student Travel Award Winner (Thanks to Richard Foltin and Suzette Evans)**

Amy R. Johnson, Matt L. Banks, Bruce E. Blough, Kate L. Nicholson, Josh A. Lile, and S. Steve Negus

Development of a monkey-to-human translational procedure to evaluate candidate medications for cocaine addiction

11:10 - 11:30 Rachel M. Enga and Patrick M. Beardsley

Progress in establishing oxycodone as an oral reinforcer in mice

11:35 - 11:55 Ryan Lacy, Max Feinstein, and Mark Smith

Self-administration of cocaine and heroin in male-female dyads: Examining the role of estrous cyclicity

12:00 - 1:00 **Lunch Sponsored by Grünenthal**

1:00 - 2:00 **2015 Presidential Lecture**

Barak Caine

Modulation of cocaine self administration through dopamine receptor subtypes

2:05 - 2:25 Brenda M. Gannon, Kenner C. Rice, William E. Fantegrossi

Reinforcing, locomotor, and appetitive stimulus effects of orally self-administered "bath salt" constituent 3,4-methylenedioxypyrovalerone (MDPV) in mice

2:30 - 2:45 **Afternoon break**

2:50 - 3:15 Matthew Banks and Blake A. Hutsell

Effects of remifentanyl as the consequent stimulus in a delayed nonmatching-to-sample procedure

3:20 - 3:40 Justin C. Strickland, Craig R. Rush, and William W. Stoops

Contribution of conditioned drug action to cocaine self-administration

3:45 - 4:05 Richard Foltin

The last talk of an otherwise outstanding set of presentations...

4:10 - 5:00 **Business meeting**
