ISGIDAR sponsored a scientific meeting as a satellite session to the annual meeting of the Committee on Problems of Drug Dependence, and the following papers were presented:

Influence of Physical Dependence on Reinforcing Intensity of Diazepam Tested by the Progressive Ratio Method in Rhesus Monkeys
T. Yanagita and N. Ohtuma, Preclinical Research Laboratories Central Institute for Experimental Animals, JAPAN

Oral Self-Administration of Triazolam and Diazepam in the Baboon: Effects of a Benzodiazepine Antagonist
N. Ator and R. R. Griffiths, The Johns Hopkins University School of Medicine, USA

Antagonism of the Discriminative Stimulant Effects of Diazepam
S. Merling and H. Shannon, NIDA-ARC (Lexington), USA

Effects of Benzodiazepine Antagonist in Barbitol-Dependent Monkeys
T. Yanagita, Preclinical Research Laboratories Central Institute for Experimental Animals, JAPAN
Mu vs Kappa Opioid Agonists: Self-Administration and Abstinence in the Rat
G. Young and N. Khazan, University of Maryland School of Pharmacy, USA

Tifluadam: 1, 4-benzodiazepine with Kappa Activity.
C. Romer, Sandoz, SWITZERLAND

Apomorphine Self-Administration in the Rat
R. Wise, Center for Research on Drug Dependence, Concordia University, CANADA

A Two-Drug Choice Paradigm Using Intravenous Self-Administration by Rats
J. Weeks and R. Collins, The Upjohn Company, USA

Intragastric Self-Administration in Rhesus Monkeys
W. Woolverton and C. Schuster, The University of Chicago, USA

Nicotine Self-Administration by Squirrel Monkeys and Beagle Dogs
S. Goldberg, M. Risner, NIDA-ARC (Baltimore and Lexington) and R. Spealman, New England Regional Primate Center, USA

1982 ISGIDAR BUSINESS MEETING

The officers were re-elected for another year.

Items of Discussion:

It was decided not to publish the ISGIDAR abstracts this year. The ISGIDAR abstracts from the 1981 Meeting in San Francisco can be found in Pharmacology Biochemistry and Behavior 15, 632, 1982.
Every year I continue to have doubts whether the meeting of the CPDD is the ideal time for our meeting. The structure of CPDD's meeting prohibits many interested people from participating even if we had evening meetings. There seem to be two alternatives - Federation Meetings and APA. My own opinion is that the former would be more useful since there is no lack of self-administration papers at APA. We might even experiment and have two meetings next year e.g. one at the Federation meetings (a natural for me since it is in Chicago) and the usual one at CPDD in Louisville. Then at CPDD we will be in a better position to discuss a permanent change. Let me know what you think by returning the questionnaire below.

Do you agree we should experiment?
Yes, add meeting at Federation
Yes, add meeting at __________________________
No
